Setting up your LifeSmart Cube Motion sensor

PIR Induction Motion Sensor

# **CUBE MOTION SENSOR**

### PRODUCT INTRODUCTION

The LifeSmart's Cube Motion sensor uses PIR induction technology to detect movement. A notification will be sent to your smartphone/tablet via LifeSmart App once the movement is detected. Or a light can be turned on automatically if you enter a dim room. It can be set as a trigger of receiving snapshots of your home on your smartphone/tablet when connected with LifeSmart Smart Home Wi-Fi Camera. With the help of LifeSmart Cloud services and other amazing technologies, every single home will become a smart home, every single office will become a smart office. LifeSmart, Simply Brilliant.

### DECLARATION

FCC STATEMENT

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
  - 1) This device may not cause harmful interference. 2) This device must accept any interference received, including interference that may cause undesired operation.
  - NOTE: The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

#### DECLARATION

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1) Reorient or relocate the receiving antenna.
- 2) Increase the separation between the equipment and receiver.
- 3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- 4) Consult the dealer or an experienced radio/TV technician for help.

#### **DECLARATION**

#### RE EXPOSURE STATEMENT

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.

## DECLARATION OF CONFORMITY

Hereby, LifeSmart declares that the radio equipment type Cololight is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: http://global.ilifesmart.com/ce/docs/

Notice: This device may be used in each member state in EU
